Daily Data Pack

The Daily Data Pack costs ₹19 for 1 GB of additional high-speed data, valid for 1 day. It does not include calls or SMS. It is deducted from your main balance when you buy it, so you need at least ₹19 available. If you see a ₹19 deduction labelled Daily Data Pack on your statement, the pack was bought by you or renewed through auto-renewal.

Roaming packs

- Travel India (₹39 for 1 day) suits a short trip outside your home circle.
- Travel Week (₹149 for 7 days) suits longer trips and costs less than buying the one-day pack seven times (₹273).
- Buy the pack before you travel, or as soon as you reach your destination.

Caller Tune

Caller Tune costs ₹30 per month. The monthly charge is deducted from your main balance on the renewal date. If your balance is too low on that date, the tune is paused until you recharge.
