SkyTel Prepaid Plans Guide

Plans, validity, data and how to choose the right one

Overview

SkyTel prepaid plans let you pay in advance and use your number for a fixed validity period. All prices are in Indian rupees (₹). Every plan below includes unlimited local calls and 100 SMS per day. The plans differ in price, validity and daily data.

Plan summary

Plan	Price	Validity	Data per day	Total data	Calls	SMS per day
Talk 28	₹149	28 days	1 GB/day	28 GB	Unlimited local	100
Starter 28	₹199	28 days	2 GB/day	56 GB	Unlimited local	100
Value 28	₹299	28 days	3 GB/day	84 GB	Unlimited local	100
Flex 56	₹499	56 days	2 GB/day	112 GB	Unlimited local	100
Max 84	₹799	84 days	2.5 GB/day	210 GB	Unlimited local	100

Daily Data Pack

The Daily Data Pack is an add-on, not a base plan. It costs ₹19 and gives 1 GB of additional high-speed data valid for 1 day. It includes no calls or SMS, and it can be used only while a base plan is active.

Cost per day comparison

Plan	Price	Validity	Approximate cost per day
Talk 28	₹149	28 days	₹5.32
Starter 28	₹199	28 days	₹7.11
Flex 56	₹499	56 days	₹8.91
Max 84	₹799	84 days	₹9.51
Value 28	₹299	28 days	₹10.68

Cost per day is the price divided by the validity in days. Talk 28 has the lowest price. Value 28 gives the most daily data (3 GB per day). Max 84 gives the most total data (210 GB over 84 days) and the fewest recharges.

Which plan should I choose?

- Mostly calls and very little data: Talk 28 (₹149, 1 GB per day).
- Everyday browsing, maps and messaging: Starter 28 (₹199, 2 GB per day).

- Heavy streaming, gaming or video calls: Value 28 (₹299, 3 GB per day).
- Fewer recharges through the year: Flex 56 (₹499 for 56 days) or Max 84 (₹799 for 84 days).
- Extra data on one particular day: add a Daily Data Pack (₹19).

How validity and data work

- Validity starts on the day of recharge, and that day counts as day 1.
- Daily data resets at midnight. Unused daily data does not carry over to the next day.
- After the daily high-speed allowance is used, speed is reduced to up to 64 kbps until the midnight reset. See the Fair Usage Policy for details.
- If you recharge a new plan while another plan is active, the new plan starts after the current plan ends.
- Recharge before your plan expires to keep your number active. Numbers that stay inactive for a long time can be suspended; see the SIM Services guide.
- Calls: unlimited local calls are included. International calls and international SMS are not included.

Frequently asked questions

Q: Which plan gives the most total data?

A: Max 84 gives 210 GB over 84 days (2.5 GB per day). Value 28 gives the most data per day, 3 GB per day, which is 84 GB over 28 days.

Q: What is the cheapest prepaid plan?

A: Talk 28 at ₹149 for 28 days with 1 GB per day.

Q: Does unused data carry over?

A: No. Daily data resets at midnight and unused data does not carry over.

Q: Can I buy a Daily Data Pack without a base plan?

A: No. The Daily Data Pack works only while a base plan is active.

Q: Do the plans include international calls?

A: No. Only unlimited local calls and 100 SMS per day are included.

Q: How do I recharge?

A: Use the SkyTel app, the website, dial *123#, or visit a SkyTel store or authorised retailer. The SIM Services guide lists every way to recharge.
